RE: Educational Improvement Tax Credit Program Application

Dear Mrs. Knowles:

The _____ School District supports the Capital Area Science and Engineering Fair (CASEF) in its application for funding under the Pennsylvania Educational Improvement Tax Credit Program.

Funds received through the Educational Improvement Tax Credit Program will be used by the Capital Area Science and Engineering Fair to offer students with the opportunity to present original scientific, engineering and mathematic research projects for evaluation by STEM professionals to earn local, statewide, national, and international scholarships and awards.

The benefits to students who participate in the program like *CASEF* are immense. Students who conduct and present independent research develop problem solving, processing of information, data analysis, and both verbal and written and communication skills through the project process. These are skills essential to successful careers.

The _____ School District looks forward to working with the Capital Area Science and Engineering Fair to provide our students with exciting experiences in this STEM opportunity.

Sincerely,

Superintendent or Designated Administrator Signature
