

Capital Area Science and Engineering Fair
EXHIBIT IDENTIFICATION/PROJECT FINAL ABSTRACT

PROJECT TITLE _____ (85 character limit)

PROJECT NUMBER _____

Must Accompany Certification Checklist

IMPORTANT: This form MUST be completed and brought to set up. NO PROJECT WILL BE PERMITTED TO SET UP WITHOUT THIS FORM IN HARD COPY!! It must be checked and signed by a CASEF certifier. It must be displayed with the project at all times. To avoid disqualification, exhibits must meet certification requirements as stated in the ISEF rules.

Final Abstract: Less than 250-word narrative paragraph and answer the following: What did you investigate? (Problem statement) How did you do it? (Experiment with control, independent and dependent variables, survey, behavioral observation, etc.) What did you expect? (hypothesis) What did you find out? (Conclusion statement) Please Type or attach typed copy:

Must Accompany FINAL Abstract Form

CASEF PROJECT CERTIFICATION

(To be completed by CASEF Certifier during set up of projects)

- _____ 1. Project display is no more than **36 inches** in width
Projects cannot exceed **30 inches** in depth or be more than **6 feet** tall.
Projects cannot weigh more than **150 pounds**.
- _____ 2. Construction of project is self-supporting. All valuable items are secured to project or brought to interview.
- _____ 3. If electricity is needed, a grounded extension cord must be provided by student exhibitor.
- _____ 4. **No living preserved organisms** (including plants, animals, or microbes); preserved vertebrate or invertebrate animals (including embryos); dried plant materials; taxidermy specimens or parts; human or animal parts; and NO human or animal food or wrappers/containers can be exhibited.
- _____ 5. No soil or waste samples, chemicals, powders, or liquids (including water); food, poisons, drugs, controlled substances; dry ice or other sublimating substances; flammable or combustible materials, liquids of gases; and sharp hazardous, or dangerous items are displayed. No aggregate (concrete et al) substances can be displayed. *NO general laboratory equipment may be displayed unless it is critical or unique to the final result or product (no scales, safety glasses, lab equipment, measuring devices, etc.) Any electronic devices needed to demonstrate project must have prior approval to be carried in on judging day.*
- _____ 6. Student name and school is **NOT** visible on display. Student number **SHOULD** be on display.
- _____ 7. Early or late entries will be NOT accepted. I understand that my project must stay on exhibit for the duration of the fair and failure to remove the project display by the clean-up deadline will result in loss of the entire display. All materials not attached to the display board will be removed after judging interviews.
- _____ 8. Project journal and research report are displayed on table in front of project and are to be labeled ONLY with project number. I understand the journal is 15% of the total score. Electronic journals must be printed.
- _____ 9. Final Abstract Form and research journal displayed in front of project board.

_____ Student(s) Initials

Signature of CASEF Certifier _____
